NOTES
Transferring from another control body If you would like to switch from your current control body, we will discount your fee by 10% for the first year. We will work with you to manage the transition smoothly, so if you are thinking of doing this, please call us for a confidential chat.
We are always happy to help, so if you have any questions, please do not hesitate to contact us using the details below. In addition, all of our documents, including our standards, technical leaflets, application forms and fee sheets are available to view and download from our website. www.ofgorganic.org . Please also visit the NATRUE website for more details of the schemes & requirements.
Valid from 1/8/2023. Fees are under review and may be revised at any time. The fees relate to inspection and certification charges but do not guarantee that a Certificate of Compliance will be issued

All applicants to the OF&G NATRUE Cosmetics and Bodycare Certification Scheme are required to submit an Initial Assessment Fee with their application, which is redeemable against your Annual Fee in the first year. This assessment is to ensure that your products comply with the scheme requirements

Following successful completion of the Initial Assessment we will carry out an Inspection, for which there will be a further charge, depending on the turnover of your organic cosmetic and bodycare enterprise. Please see details overleaf.

For the OF&G NATRUE raw material approval scheme inspection is not normally required unless you are making organic claims for the completed raw materials but are not certified by a recognised organic certification body for the processing or packing of that product. See the NATRUE website for more details.
<https://www.natrue.org/natrues-new-raw-materials-approval-scheme/>. If an inspection is required, it will be charged at the Additional/Spot inspection fee.

Where companies have more than one site inspected and certified, each site will be treated as a separate registration. OF&G will attempt to inspect all of the sites as cost effectively as possible, but Inspection fees will depend on how far apart the sites are.
